

ROBERT BATEY

Professional Crafts Photography

865-607-6477 • rbatey@mac.com • www.robertbatey.com

Professional digital photography of your work for jury, promotion or publication. We help you present the best image so you can concentrate on what you do best.

What We Do

We create high quality, dynamic photography of your work for jury, promotion or publication. Robert can provide you with top quality digital images ready for printing, publication, booth displays, web sites and ZAPP® or JAS online juries using the latest digital equipment. Investing in professional images will help you stand out to jurors and increase your visibility at highly competitive shows.

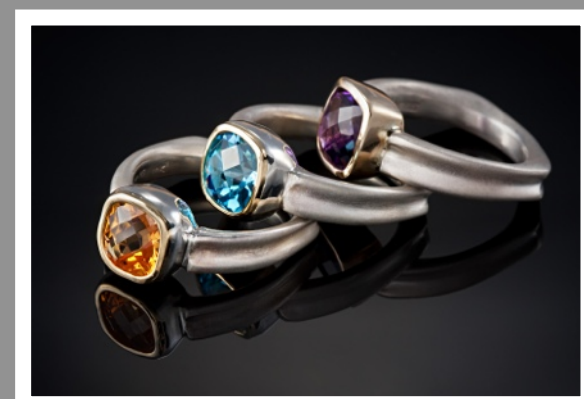

We offer personal attention and work hard to help with the details through every step of the process. Trained as an architect, and an accomplished artist himself, Robert applies the same meticulous, thoughtful attention to detail to your work as his own.

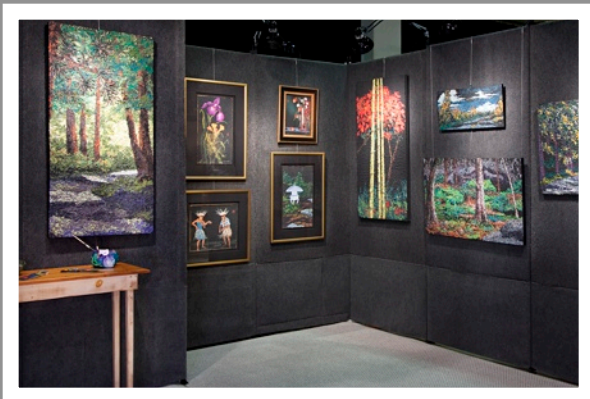

We have provided the on-site photography services for Southern Highlands Craft Guild every July and October since 2003, for Piedmont Craftsmen each November since 2006, Foothills Craft Guild since 2010, and the NIADA international doll conference 2009.

Our Process

- Ship your work or come by our studio.
- We enjoy working directly with artists and welcome your input in the studio.
- Depending on the piece, I will often shoot several angles, including close ups and details.
- I put all the shots from your session on a private web site for you to choose from.
- After selection, your final images can be delivered by internet download, email or CD
- Turnaround time is usually within a week.
- Upon payment the artist will have unlimited rights for use of images.
